fiber distribution box

COALESCE FIBER DISTRIBUTION BOX - CS-FDB-48W

Coalesce Fiber optics distribution cabinet is currently being widely used for distributing outdoor optical cable in indoor and outdoor conditions. It is suitable for FTTx application. This cabinet offers ideal environment for fibers to be spliced and well organized under indoor environment.

Features:

The cabinet has functions of cable termination, splicing, distribution and cross-connection.

Solid and fully-closed structure with the advantages of good performance of dust-proof, pleasing and neat appearance.

Two types: fillet type and square corner

Ideal for indoor uses – cable entrances & exits located on bottom.

The central adapter board separates the incoming cables and the exiting fibers

Adapters are installed on our X-position adapter holders, no screws need for installing any type adapters, which is very easy for future maintenance and keeps the transmission loss at low level.

Adaptable adapter types: SC/APC

Ordering Information :

CS-FDB-48W

FEATURES

Capacity : 48 Fiber Cores

Material : Sheet Molding Compound

Max Inlet Cable Diameter : 15 mm

Max Outlet Cable Diameter : 3 mm

Air Pressure : 70kPa – 106kPa

Temperature: -30°C~+60°C

Ambient Humidity: ≤90% (at 30 °C)

Installation: **Wall Mount**

Dimensions : Customized as per Site

Package Contents :

SMC Box

SC/APC Adapters

SC/APC Pigtailed, G652D, 0.9mm, PVC

Heat shrink tubes
